Smarter Fleet Operations & Driver Insights

The **IQ-Wired-68** delivers precise real-time tracking for rentals, taxis, logistics, and more. Managers gain visibility to optimize routes, validate time spent at sites, cut costs, and boost safety across their operations.

"Every route. Every driver. Fully visible."

Smart Control & Fleet Insights

The **IQ-Wired-68** provides powerful tools for driver behavior analysis, maintenance tracking, and odometer or engine-hour monitoring. Gain the insights needed to reduce downtime, improve performance, and extend the life of your fleet, all from one intelligent, connected platform.

"Smarter data for safer, more efficient fleets."

Vehicle Leasing & Theft Recovery

Protect and recover vehicles with confidence. The **IQ-Wired-68** provides real-time tracking, movement alerts, and remote starter disable for rapid theft recovery or contract enforcement. Reliable, discreet, and always connected.

"Security that moves with your fleet."

Key Features

SMALL & COMPACT

Slim, low-profile design that fits in any powered asset

CONCEALABLE DESIGN

Fits discreetly in any powered asset for secure and tamper-resistant installation

GEO-FENCING

Create custom zones and receive instant notifications when assets move outside designated areas or operate after hours

PRECISE GPS TRACKING

Advanced GNSS receiver delivers accurate and consistent location reporting for your fleet

SIMPLE INSTALLATION

Quick two-wire setup allows fast, hassle-free deployment

SEAMLESS INTEGRATION

Effortlessly integrates with your fleet operations
