# AirIQ Announces March 31, 2018 Year End Results Reports Double Digit Increase In Recurring Revenue, Strong Cash Balance 

Toronto, Ontario - July 11, 2018 - AirIQ Inc. ("AirIQ") (TSXV:IQ), a supplier of wireless asset management services, today announced its financial results for the year ended March 31, 2018, reporting increased recurring revenue and a strong cash balance compared to the previous year.
"We are pleased to report that recurring revenue increased year over year by nearly $14 \%$," said Michael Robb, President and Chief Executive Officer of AirIQ. "We believe that the increase in recurring revenues is a strong indicator of our success. In addition, our cash balance was approximately $\$ 527,000$ as at March 31, 2018, after acquiring the assets of Connected Telematics. The Company's cash will be used to invest in additional sales and marketing initiatives, such as our recently announced Reseller Channel program, and for potential future acquisitions to fuel further revenue growth," continued Mr. Robb.
"The acquisition of the Connected Telematics assets has increased our monthly recurring revenue, the number of devices in circulation and expanded our market opportunities in North America, and has continued to perform to our expectations," stated Mr. Robb. "The Company reported an adjusted net income of approximately $\$ 262,000$ for the year ended March 31, 2018, after a one-time impairment charge of $\$ 102,000$ required under IFRS regulations," continued Mr. Robb.
